Dr. Raker,

I would like to take this opportunity to send you and your staff a word of thanks. We have been associated with you for approximately two years now, and have received exemplary service. Due to the nature of our business, it is crucial to have the services that you provide processed in a timely manner. Your clinic has met these needs each and every time requested. I would also like to extend a special thanks to Jessica for her courteous and expedient service.

Sincerely,

John Garrett
