To Whom It May Concern;

I would recommend the Arkla-Tex Health Center for your drug, alcohol and physical requirements. We have used the services of the Center and found them professional and well knowledged in the regulations and requirements. The office personnel are courteous and professional. When we need to to get one of our employees in for any of the services, we have had no problems scheduling them. The results are handled and returned to our office in a timely and confidential manner. Any questions we have, the Arkla-Tex Team have always been great about answering them. I would recommend them to anyone who wants and/or needs a well-managed service.

Sincerely,

**Bill Person**  
**Safety Director**  
**Compliance Review Consultant**
