Dr. James Raker  
Ark La Tex Health Clinic  
1414 Arkansas Blvd.  
Texarkana, Arkansas 71854

Dear Dr. Raker,

Hazel Street Recovery Center would like to express their appreciation for the professional level of care you have provided to our patients through out our association with the Ark La Tex Health Clinic.

Our initial patient examinations by Steve Earlywine APN, and Dr. Clayton Nash MD, medication follow ups and orders are very thorough and always in compliance with our state licensing. We appreciate that you maintain medical histories on each one of our patients to better treat them if unexpected illnesses occur during their treatment regime at Hazel Street.

We have had occasion to invite Mrs. Vickie Raker, RN on site to conduct in-services with our employees, which have been very informative and professionally presented. Mrs. Raker, RN has also provided us with valuable guidelines on Osha requirements, providing a video for new employee orientations. Mrs. Raker, RN also provided us with methods of handling "blood" if accidents occur with our patients who are considered a "high risk" population for diseases passed through fluid contact.

All of your staff has consistently been accommodating, and many times, assisting beyond what is required. Our young men come to Hazel Street from all over the United States for extended lengths of time. Their families are always expressing appreciation that we have available such extensive medical services.

On behalf of myself, the Administrator of Hazel Street and our Executive Board we express our sincere gratitude.

Respectfully,

A handwritten signature in cursive script that reads "Sue Bond".

Sue Bond AAC, ADCIII, LCDC  
Administrator
