I would like to show my admiration for Ark-La-Tex Health Center for Being our **one stop health center**. It nice to be able to send our employees to one health center to do our new hire's and also our on going employees to keep us OSHA complaint in hearing test, pulmonary test, drug screening. They work with us and know the OSHA recordable rules and regulations. In turn that means they understand our problems in keeping a good safety record for our company and at the same time our employees are getting the best in health care to get them back to work.

If any company if serious about safety and there employees Ark-La-Tex is the heath center they need to have on board. They will save your company money but will not sacrifice the proper care needed to keep everyone working and healthy.
